'Give Us Water That We May Drink'

# 'TANSAN' SAVOY,

**PURE.** Equable in Flavor, Stimulating without Excitation, this life-giving, Natural Mineral Water gushes out of the mountain-side at Takarada, near Kobe, Japan.

**PURITY.** Its source is amid hard volcanic rock, beyond reach of contact with any human being, and it is conveyed by gravity through a rock-lined tunnel, and concrete aqueduct to a sheltered enclosure, where, without pumping, bailing, or touch of human hand, it is placed in machinery in sterilized bottles and packed in cases for shipment; thus, from its initial source protecting the water against possible taint of any kind. Percolating through several strata of virgin rock, it is saturated with their essential-mineral properties, and no chemical skill can duplicate the living Tansan any more than the laboratory can evolve a living tree.

**FLAVOR.** Tansan gladdens the palate with a taste peculiar to itself, clean, crisp, novel, and delicious. Its appealing taste, a source of satisfaction, without savor of a feeling of fulness, however freely indulged in.

**TANSAN** is Nature's own distillation, and because of its absolute purity it blends with spirits, wines, stout, milk, and other liquors without altering the natural flavor, except to unfold it.

**STIMULUS.** Tansan is refreshing, and, by reason of its saline qualities, it excites the appetite and stimulates the nutritive functions. It is persistently regulating without being laxative, and it eliminates from the problem of life the elements attributable to the liver and kidneys.

The supply is inexhaustible, being an even flow, entirely independent of surface conditions of a wet or dry season, and there will never be necessity nor excuse for the artificial manufacture of Tansan, so that it will be forever free from the objectionable taste peculiar to all "stout" and "brewed" waters. Visitors to the Spring find the entire plant open to inspection, and nothing to conceal.

**TANSAN** conduces to vigorous health. It is *Just* what you need.

**TO SMOKERS.**

It is a well-known fact, admitted by the EGYPTIAN CIGARETTE MANUFACTURERS themselves, that Cigarettes imported from Egypt are made from TURKISH TOBACCO, which is subject to a heavy Import Duty in Egypt. Hongkong being a Free Port tobacco can be imported free of duty.

**Two Good Reasons** why it is advantageous to Smoke my Cigarettes.

1.—Cheapness of my Cigarettes compared to imported cigarettes, owing to tobacco being admitted duty-free into Hongkong, and that you are buying direct from the Manufacturer, doing away with middlemen's profits.

2.—Freshness of my Cigarettes, as they are made daily for each day's consumption, which makes it impossible to have an old stock of Cigarettes, as is very likely with imported Cigarettes.

The following is a list of my Cigarettes made from the Best Turkish Tobacco at from 40% to 60% cheaper than imported cigarettes of equal quality.

NAME	SIZE	PACKED IN	PRICE PER 100
Great Britain...largest	50	50 & 100	4.50

HONGKONG, THURSDAY, JUNE 7, 1906.

THE TINNED MEAT DISCLOSURES.

Not only has the moral sense of America and the whole world been shocked by the disclosures which have been made regarding disgusting and dangerous practices in connection with the preparation of tinned and preserved meats in America, but a blow has been struck at one of the most powerful trusts in existence. Even with the partial knowledge of the facts we have so far been placed in possession of we can realise that the horror and indignation of the American people had been righteously aroused. Adulteration is one of the greatest curses of the age, and the ingenuity of Legislatures all over the world has been taxed to ensure for the purchaser an article of the quality and substance demanded. The adulteration of fabrics is bad enough in all conscience, but the adulteration of food stuffs is infinitely worse. The first only damages the pocket, the latter is a menace to life itself. If the reported malpractices in connection with the preparation of tinned meats for general consumption are borne out in their entirety—it should be remembered in fairness that we have so far heard but the one side of the question—the point that will strike most people is the extraordinary shortsightedness of the trust. To build up a reputation for fair and honourable dealing takes many years, but the reputation so gained cannot bear one breath of justifiable suspicion. Like the gourd of the Biblical story it withers away in a single night. American tinned stuffs have had an enormous vogue all over the world, and wherever such things were required they generally obtained the preference, owing to the daintiness of their get-up and the general belief in the excellence of their contents. Even in Australia, where there are numerous meat-canning establishments, the local preparations were generally passed over in favour of the more attractive looking American product. Our special cable informs us to-day that an immediate result of the exposures in America had been a sudden appreciation of the prospects of the Australian industry. As is only natural the British Admiralty has decided to bar out the tainted American product from future contracts. The old saying that it is an ill wind which blows no-body good is peculiarly applicable to this case. There can be no question that the wind blowing over the meat reduction works in America is an ill one, if reports are even approximately true, and it is equally certain that Australia and New Zealand stand to profit considerably thereby. In the past the Australian manufacturers have paid too little attention to the get-up of their products which were, as a rule, placed on the market in serviceable but awkward looking tins with hideously unattractive labels. Trifles such as these make or mar the success of an industry, although we pride ourselves upon not judging a man by his coat and generally in not putting too implicit a faith in exteriors. Actually we do judge most men by their apparel and

the appearance of the outside often decides our opinion of the interior. If Australia rises to the occasion and makes the best of her opportunity she may confidently expect to gain the greater part of the trade which America will assuredly lose. Not for years will America be able to live down the malodorous reputation she has just achieved and by that time the Australian product will in all probability have thoroughly established itself. The misfortune of the trust will have the indirect effect of increasing the trade between the different parts of the British Empire in one important staple quite as effectually as, and with much more rapidity than, any scheme of preferential tariffs which would take years to devise.

About a month ago we referred in this column to the strange ambition which develops itself in certain people to improve upon Nature by propagating white blackberries, green carnations, black and tan violets, or something freakish of that nature. After all these exorates do not do so much harm. The plants upon which they operate do not, as we know, feel and no-one is any the worse off unless it be that they are themselves, in wasting so much valuable time for such little return. There is however another species of crank who experiments with animals—and who should be sternly suppressed. Most of us have seen at dog shows unfortunate animals who have had some particular attribute or "point" so developed that to the eye of the man who does not understand the unholy joy of the breeder they seem to be caricatures upon creation. The lives of these unhappy animals must be a torture to them. Nature intended them to develop normally, but man with that superb conceit that has ever been his most marked characteristic, essays to show Nature what she ought to have done. An American chicken farmer has just appealed for the approbation of the world because he has succeeded, after lengthy experiments, in producing a new species of chicken. He has received an unstinted amount of praise from the "trade journals," which supply an expectant public with the latest intelligence from the fowl run, spiced with the scandal of the roosts. One would naturally assume that the New Chicken had egg-laying capacity largely in excess of the ancient and conservative hen, or that in weight and succulence it exceeded its progenitors. Not at all. The brainy breeder aimed much higher. His complacent claim to fame is based on the fact that he has produced a clutch of eleven chickens each having one leg longer than the other. The result, he triumphantly declares, is that they are compelled to walk in circles, and therefore cannot walk far afield!

The prevalence of snakes in the Colony is alarming many people. The warm weather seems to have brought out quite a number of reptiles, and travellers along the bush roads frequently observe a sinister body making for the underwood. Whether the snakes of Hongkong are poisonous or not does not seem to be set out clearly in any Government document. If they are the public should be made fully aware of the danger they run in proceeding through the bush without taking proper care to avoid snakes. Quite recently a snake some five feet long was killed on Stonecutter's Island, having been caught swimming in the water, and though it was savage unto frenzy it did not appear to have any poison fangs. In Australia the precaution is taken to post up at every public building a statement concerning snakes, and how to tell when they are poisonous. Antidotes for snake bite and hints on how to treat wounds are also given, so that the general public, if it cares, can acquire knowledge without any trouble or expense. Generally speaking, it is certain that if an Australian snake bites and leaves four punctures it is not dangerous, but if there are two punctures it is one of the venomous type and the wound must be dealt with at once. Whether the same rule can apply to the snakes of this Colony or not cannot be said, but it would be well if the Government made investigations on the point and published details for the information of the public. If it so happens that anyone is bitten by a snake a remedy is always at hand. Dr. Leonard Rogers, writing in the Indian Medical Gazette, declares that permanganate of potash is an effective

remedy. In his paper he reports on twelve cases of snake bite in which this new remedy was put into practice. In two cases it failed, but these were the cases in which the longest interval had elapsed before the remedy was applied. The persons were bitten during the night and were not treated till the following day, the interval in one case amounting to eleven hours and in the other nine hours. In seven of the successful cases the snake was killed and identified; in five cases it was a cobra and in the other two it was a viper. In the remaining three successful cases the identity of the snake was not ascertained in two cases, and in the other case the reptile was seen and described as a cobra. Of the two fatal cases, one was bitten by a cobra, the other by a snake that was not identified. Two of the successful cases were treated by Europeans without any medical training. In three of the successful cases treatment was begun at once, in the remaining seven the interval varied from half an hour to four hours. These results show that even when all the doubtful elements have been excluded or allowed for, this method promises to be most efficacious, and a very satisfactory feature is that it is so simple anybody can apply it, and so cheap that it is within the reach of the poorest. When a person has been bitten by a snake the first thing to do is to apply a ligature above the wound to prevent the rapid absorption of the venom. Then an incision is to be made over the snake bite with any sharp cutting instrument that is perfectly clean, and a few grains of the permanganate of potassium is a cheap drug, obtainable from any druggist. It keeps indefinitely, and a pound would suffice, at the rate of 10 grains for each case, for between 700 and 800 people.

## LOCAL AND COAST NEWS.

It is reported that Dalry will be declared a free port.

Prince Tai Chun is endeavouring to raise capital and promote waterworks in Peking.

A Peking report states that the Walwup has addressed dispatches to the foreign ministers to the effect that in future no one will be allowed to trade in Tibet unless he has already been established in that country.

A concert will be given at the Kowloon Docks on Saturday evening, for which a good programme has been arranged. A lunch tea at Blake Pier at 8.15 p.m. to carry over visitors and will return at the conclusion of the concert. The price of admission is 50 cents.

"If I didn't take it away someone else would have," said a coolie, charged, at the Magistracy this morning, with stealing a portion of a weighing machine from a ship in the harbour. Mr F. A. Hazell was unsympathetic and imposed a sentence of three weeks' gaol with six hours' strokes each.

A coolie was convicted, at the Magistracy this morning, of having snatched \$2 from a Chinese girl. He stated that the girl dropped the money and he picked it up but threw it away when she called thief. He was sentenced to three months' gaol, with six hours' strokes and two whippings of twelve strokes each.

Two Chinese coolies were detected of running coal at Wanchai last night and the water police at once gave chase. When the Chinese saw that they were being overhauled they threw the coal into the sea but this did not save them from arrest. They were convicted, at the Magistracy this morning and fined \$50 each.

A gambling raid was made last night at Station Street, Mongkok. Some of the gamblers took refuge under a bed in the room, others under a stove in the cook house, and others in all sorts of odd corners. Eighteen were arrested and convicted, at the Magistracy this morning. The two first defendants were fined \$25 each and the rest \$3 each.

## The Rice Crisis.

The unrest and dissatisfaction shown by the masses in some provinces on account of the high and unprecedented price demanded for their staple food has caused the Imperial Government to strike at the root of the trouble; that is to say, an Imperial Rescript was issued on the 31st ultimo commanding the prohibition of the export of rice from Chinkiang and other cities of the Yangtze Valley.

## DO NOT NEGLECT THE CHILDREN.

At this season of the year the first natural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy can always be depended upon, and when reduced with water and sweetened is pleasant to take. Sold by all chemists and druggists.

## BY TELEGRAPH.

### MEAT PACKING SCANDALS.

#### WHERE AUSTRALIA PROFITS.

No American Meat Wanted.

(Exclusive Service, supplied by Reuter, via Bombay).

LONDON, June 6.

It is anticipated that the disclosures made in Chicago regarding the preparation and packing of putrid meat for sale will cause a boom in Australian and New Zealand tinned goods.

It is stated that the War Office and Admiralty have stipulated for Colonial tinned meat in the recent contracts.

### THE GOVERNMENT.

#### DANGERS OF THE EDUCATION BILL.

Mr Chamberlain's Views.

(Exclusive Service, supplied by Reuter, via Bombay).

LONDON, June 6.

Speaking at Highbury Mr Chamberlain stated that the Education Bill would never pass.

He remarked that he would not be surprised if there were a general election in the spring.

(REUTER'S SERVICE.)

#### JAPANESE SHIPS AT PORTSMOUTH.

LONDON, June 6.

The Japanese crews are being entertained at Portsmouth, and daily festivities take place.

#### THE MADRID OUTRAGE.

The Death Roll.

LONDON, June 6.

The officials are reticent, but it is stated that to the present, twenty-four persons have died in Madrid from the bomb outrages, and others are dying.

#### THE UNITED STATES AND CHINA.

A District Judgeship.

LONDON, June 6.

The Washington House has passed a bill for establishing a District Judgeship in China.

A Court will be held annually in Shanghai, Hankow, Tientsin and Canton.

#### SAN FRANCISCO.

Another Shock of Earthquake.

LONDON, June 6.

A shock of earthquake occurred at San Francisco on Monday night, but no damage was done.

#### Further Arrests.

The Director of the Modern School, whose Moral Lodge, and several anarchist professors have been arrested in Barcelona.

The police declare that they have established Moral as the author of the bomb outrage in Paris, when a bomb was thrown at King Alfonso.

The Japanese detachment attacked and occupied, Hong Kong Castle, Corea, on May 31, and took 120 prisoners. Sixty rioters and two Japanese were killed.

A larceny was reported from St. Stephen's College yesterday. It appears that during the temporary absence of Rev. E. J. Barnett from the office someone opened the office safe with the keys which had left on a desk in the office. When he returned the safe was locked as usual and the keys where he had left them but \$60 was missing from its contents.

#### WEATHER REPORT.

The following notice is issued by Mr Figg of the Hongkong Observatory:—

On the 7th at 11.55 a.m. The barometer has fallen over N. China and Japan. A depression is passing from the coast of the Yellow Sea. Pressure is highest over the S. part of the China Sea.

Fresh S. and SW. winds are indicated in the Formosa Channel and the N. part of the China Sea.

Forecast:—Fresh SW. winds; equally showery.

#### A MEDICINE THAT WILL CURE CHRONIC DIARRHOEA.

CHAMBERLAIN'S Colic, Cholera and Diarrhoea Remedy is the most successful medicine in the world for bowel complaints, and is the only remedy that will cure chronic diarrhoea. Every bottle is warranted. For sale by all chemists and druggists.

WEDNESDAY, 26th Sept.	

## SPORTING.

## Rowing.

On Saturday last a scratch race took place at Yau-mai in connection with the V. R. C. Four boats competed, and the "Rose" (Witchell's crew), steered by E. Humphreys, went ahead from the start. The "Korblume" made a bad commencement and was left in the rear, but soon got into swing again and began to overhaul the other boats. Bad steering on the part of the "Rose" resulted in the two, centre boats being forced close together, in fact, there was almost a collision. From the left side of the course the "Rose" crossed to the right, finishing first on the wrong side of the mark, one length in front of "Korblume," which had passed the other two boats. At a meeting of the Committee, subsequently held, the "Rose" was disqualified and the first place given to "Korblume." We understand the crew of the "Korblume" have refused to accept the prize, consequently in all probability there will be another race shortly.

## Swimming.

During next month the V.R.C. will hold their first aquatic fête of the season. The sub-committee are now arranging the programme which will be announced shortly. At a meeting of the V.R.C. Committee on Tuesday the following sub-committee were appointed:

RACE HOUSE: J. H. R. Hume, H. A. Tanner, and J. W. Bain.  
BOAT HOUSE: L. A. Moore, T. E. Fearon, and R. W. Pearson.  
GYMNASIUM: W. T. Pearson, J. A. N. Alcock, and H. M. Harrop.  
MAN: M. McLean, P. M. Handland, and H. A. R. R. R.

## Chit System in Clubs.

The V.R.C. have taken a step in the right direction by following the lead of the Corinthian Yacht Club in introducing the coupon system into the club and disallowing the chit system. It would be well if chits were more generally discontinued and cash payments substituted, for, as is common knowledge, the chit system has been responsible for the downfall of a large percentage of those who have got into difficulties in the Far East. It is so simple a matter to sign a chit, but the liquidation is a different matter. In future the V.R.C. will conduct their bar by means of coupons, or members may sign chits by paying from 10 upwards in advance.

## A Challenge.

W. Bethune, ex-champion hammer thrower of New South Wales, wishes to challenge any man in the Far East to meet him for any stake in competition in the following events: Throwing the 16lb hammer; tossing the caber; weight lifting; scratch pulling (one hand); and tug-of-war on battens. In the first item Mr Bethune will concede his opponent 20 feet. The challenger is a man of 5 feet 10 inches in height, weighs 13 stone, and is 38 years of age. As he is leaving the Colony shortly he would be glad to make a match as soon as possible.

## RHEUMATISM.

WHY suffer from this painful malady when one application of Chamberlain's Pain Balm gives relief? Hundreds of grateful people testify to the magical power of this remedy over rheumatism. For sale by all chemists and druggists.
